

# ANGEL NOA

## Front End Web Developer

Orlando, Florida • hello@angelnoa.com • +1 (407) 427-9678

### SUMMARY

---

- Web Developer with 6 years of experience working in web design making websites for clients and improving company processes.
- Learned web technologies from studying at University, and independent self research, with a focus on front end web development and libraries.
- Seeking roles applicable to front end development that are part of a team. A desire to learn new skills and information and stay with a company for an extended period of time.

### PROFESSIONAL EXPERIENCE

---

#### BRYTEBRIDGE | Orlando, FL | Web Developer | 2017-2023

- Created hundreds of websites built with WordPress for nonprofit clients at BryteBridge, a company that provides services to nonprofits
- Worked with clients to deliver their vision. Clients would be consulted to incorporate their revisions, adding new pages, updating design elements, and introducing new features into their site.
- Updated methods and processes for the company to improve workplace efficiency. New reports were built that could automatically collect data, and directly produced new forms of client acquisition.
- Connected various company websites, CRMS (such as Infusionsoft and Zoho), and external third party APIs (such as Zapier, and Google Sheets). This improved how information was collected and processed in the company through automation.
- Rebuilt the internal company store from the ground up, and customized the features to the company's needs. Coded various specific interactions that the company required for its internal store.

### EDUCATION

---

#### UNIVERSITY OF CENTRAL FLORIDA | 2012-2016

Bachelor of Arts Degree in Digital Media: Web Design
